

## Zirconia Crown Fee Statement and Agreement Please read this carefully

A Zirconia Crown is an esthetic alternative to a Stainless Steel crown. It is an optional and elective treatment.

The fee for the Zirconia Crowns are \$450 each (\$300 for code D2929 and \$150 for the Zirconia Crown **Material Fee**).

**By choosing this option for your child you agree to the following:**

1. There is an extra \$150 Zirconia Crown **Material Fee** for each Zirconia Crown placed in the mouth.
2. This Zirconia Crown **Material Fee** is not billable to your insurance company.
3. You will not see the Zirconia Crown **Material Fee** on your explanation of benefits from your insurance company because we do not bill this amount to your insurance. Your patient portion due will be more than what is listed on your explanation of benefits (by the \$150 Zirconia Crown **Material Fee** for each Zirconia Crown).
4. Some HSA or FLEX plans will not cover the cost of the Zirconia Crown **Material Fee** because we do not bill it to your insurance.
5. If there is breakage of the Zirconia Crown or if the crown is lost, you will accept and will pay for any replacement costs (\$450 for each crown). The new crown and Zirconia Crown **Material Fee** will not be billed to your insurance company.

By signing below I agree that I understand and agree to the items listed above:
